### Assumptions, Limiting Conditions & Certifications of Appraisal Practice

This certificate/report contains diamond quality used in products, based upon the generally accepted grading techniques adopted during the examination in the laboratory. We do not hold any responsibility for any discrepancy, which may result from the application of other grading methods and will not be held liable for same. This certificate/report can not be treated as appraisal or warranty in any case.

The carat weight of the diamond represents the approximate total weight used in the product. Clarity grading is based on 10x magnification as per the area visible and as per mounting permits. Colour grading is based on the comparison made between the master set and the colour grade used in the actual product.

This report relates only to the products tested and is subject to the terms and conditions set forth above. This guarantee is limited to the refund of the order amount only.
